Renalogic
Guaranteed Impact. Every Day.

Protect Plan Assets and Reverse the Progression of Chronic Kidney Disease

The costs of chronic kidney disease (CKD) and dialysis are catastrophic for health plans and their members, but **proactive and preventative action pays off**. Renalogic enables health plans to identify and get ahead of hidden CKD risk.

impactIQ

Identify hidden CKD risk

ImpactIQ enables third-party administrators to identify, stratify, and quantify the hidden risks posed by CKD. By analyzing biomarkers, claims data, and member and provider-reported information, **ImpactIQ identifies health plan members with diagnosed CKD, undiagnosed CKD, and those with an increased risk of developing CKD due to comorbidities and health trends.**

impactAdvocate

Navigate members to lower cost, high-quality treatments

Managing chronic disease conditions can be overwhelming and confusing for plan members. **ImpactAdvocate** is a comprehensive advocacy program that helps members traverse the challenging healthcare landscape.

Supporting members with Stage 4 or higher kidney disease, **ImpactAdvocate helps members understand their clinical and coverage options, as well as which treatment options might yield the highest quality results at the lowest costs.**

impactCare

Early, specialized clinical intervention

Prevent, delay, stop, or reverse kidney disease with **ImpactCare**. The only program of its kind, ImpactCare combines **early identification** with **specialized clinical intervention and management.** Registered Nurses work with members to slow the progression of kidney disease, preserve or improve kidney function, improve overall health, and reduce the cost of care for members who might otherwise progress to end-stage renal disease.

99.7% *99.7 percent of participating members have avoided dialysis.*

impactProtect

Reduce catastrophic claim costs

Renalogic's flexible repricing solution, **ImpactProtect**, protects self-funded plans from devastating, high-cost dialysis claims. Over the past 20 years, Renalogic has **saved clients more than $760 million** on billed charges. Today, Renalogic works with over 400 self-funded plans across the country.

ImpactProtect typically saves clients between **$100,000 and $200,000 per member** and **keeps claims' costs below the stop-loss specific deductible.**

82% *Clients save 82 percent on net claims.*
